

3-D ITEM PRODUCTION REQUEST

The NUMED technical team is happy to help you in developing your customized plastic food or 3-D item. Knowing that such process might be complicated and long, correctly filling this document is mandatory for NUMED team to best understand your needs in order to better serve you.

NUMED respects the confidentiality and the intellectual property of the idea you are seeking to develop. Nevertheless, NUMED reserves the right to use the product or pictures of it for its own needs as its own discretion. Please note that our company uses only kid-safe material throughout the manufacturing process.

In order to have a quotation for any 3-D item, you are asked to:

- 1- Fill sections A, B and C of this document **for each product** you need to develop and send it by mail to info@numed.me or by fax to + 961 1 390592.
- 2- Send, along with this duly filled form, the product itself and/or several colored quality pictures from different angles for each one of the items making the final products (if this is the case) in order for us to better understand your idea (name the pictures with the name you used for it in this document).

Once this filled document and pictures/item itself are received, NUMED will send back, within a period of 2 working days, a quotation along with the list of ingredients samples needed (written in section A-2), if any.

A- Required data about the product (filled by customer)

1- General information

- a- Item Name: _____
- b- Item Description: _____
- c- What the item will be used for: _____
- d- Target population(s): Babies Infants Adults Others: _____
- e- Frequent hand contact: Yes No
- f- High friction on the product: Yes No
- g- Number of pieces required (or weight/quantity, if applicable, in kilograms): _____
- h- Level of details required for the 3D item:
 - Produced in its full volume (all facets) (this will lead to much higher cost)
 - Produced in all its facets except the back/bottom one (the one that does not show when it is put on a table: this side will be flat without any detail in this case)

2- List of visible ingredients/parts (if the product is made of multiple parts: objects, ingredients, components, plates). All visible parts should be listed

To be filled by the customer		To be filled by NUMED			
Name of visible parts	Samples available	Item code	Item name/Description	Quantity	Number of samples or weight needed
	<input type="checkbox"/> Yes <input type="checkbox"/> No				
	<input type="checkbox"/> Yes <input type="checkbox"/> No				
	<input type="checkbox"/> Yes <input type="checkbox"/> No				
	<input type="checkbox"/> Yes <input type="checkbox"/> No				
	<input type="checkbox"/> Yes <input type="checkbox"/> No				
	<input type="checkbox"/> Yes <input type="checkbox"/> No				
	<input type="checkbox"/> Yes <input type="checkbox"/> No				
	<input type="checkbox"/> Yes <input type="checkbox"/> No				
	<input type="checkbox"/> Yes <input type="checkbox"/> No				

3- Important notes

- a- All required samples mentioned in section A-2 should be delivered by the customer to NUMED premises.
- b- The 3D-items produced will totally rely in dimensions, shapes, details and colors on the samples provided. Therefore, customers should provide the best samples possible as end products will be **exactly** as the one provided.
- c- In situations where the item have multiple shapes (i.e. peanut, corn flakes, etc.) a minimum weight (100, 200g, etc.) or number (2, 3, etc.), determined by NUMED, might be requested.
- d- For food, with absolute respect to confidentiality, NUMED might ask for the original making-of process and/or ingredients used to produce a specific food as this might be helpful in the model production.
- e- If a 3-D item is not physically available, NUMED will help in developing it with close communication with the customer (pictures sent by the customer would be very helpful).
- f- In case of point “e” extra charges will be put on production cost depending on complexity and technic used.

B- Payment and delivery policy

- 1- Confirmation of the order is only done by signing the quotation based on checking and accepting the samples provided and/or by mail reply. Upon confirmation, 50% of the quotation amount should be paid before the product development process is launched.
- 2- One sample will be provided after 2 to 10 working days depending on complexity.
- 3- Minor sample adjustments can be made free of charge before mass production.
- 4- Nevertheless, NUMED retains to right to adjust the quotation for a new confirmation were adjustments are considered costly at NUMED’s discretion.
- 5- No money is refunded if the order is canceled or the sample is refused.
- 6- The total quotation amount should be paid fully upon delivery of the whole order.
- 7- Price per item decreases when the ordered quantity increases (usually very high costs for 1-5 items)

C- Company information

Customer/company name:	
Mobile #:	
Country:	City:
Detailed address:	
Contact person name:	
Contact person’s phone number:	Contact person’s email:

Any notes you would like to add:

Date: _____ **Name:** _____ **Signature:** _____

This section is reserved for NUMED

Item code:
Item name:
Group:
Subgroup:
Family:

This document should be sent to the technical department to fill the “Trial file for new ReplicAlive” (TEC001) In case of market launching of this item, the “New Product Submission Form” (RDD001) should be filled.
